WORK EXPERIENCE

Science Society of Nigeria (SSSN) Assistant General Secretary

- Worked with other executive members of the society to organize Conferences, Seminars, and Inaugural Lectures Prepared proposals and other letters for pitching our events and ideas to lecturers, sponsors, and other prospective stakeholders.

King's Breed Academy

Class Teacher

- Impacted knowledge to 30+ students, teaching them the basics of Mathematics and helping them pay attention to their social needs.

Python programmer & Web Developer

- I have a workable understanding of HTML, CSS, Javascript, and reactjs which I use in building websites and web interfaces. I
- analyze data and create visualizations using Python programming language, Microsoft excel, and Tableau.
- I built a program that examines security pins and carries out simulations to verify identity. I built this using my knowledge of dictionaries, lists, time functions, and other libraries and functions.
- Built games such as the rock, paper scissors, Hangman, etc using my knowledge of python libraries.
- Proficiency in the use of Matplotlib, Numpy, and Pandas libraries for data analysis and visualization.

Intern at Cogenie

- Currently working on a website for CWAY International. I worked on the footer component and would also be working on other components of the website. I constantly made use of APIs both in Javascript and in Reactjs.
- I worked well with other team members in the delivery of the project that we were assigned.

Intern at Tribnova

- Collaborated with team members in a learning web application. I wrote clean codes that were very understandable.

PROJECTS

Frontend

The Movie Website

- I built the website using TMDB API. This website was built with HTML, CSS, and JavaScript which displays the most popular and trending movies.
- I made use of async, await, fetch, ternary operators, and Javascript functions, arrow functions in building this website.
- Here is the link: <https://vick-movie-hub.netlify.app/>

Decagon replicate and Compass Dashboard

- I built this website using Reactjs.

VOLUNTEERS

Delegate and Organizer at World Soil Day

- Worked with a team of executives at the Soil Science Society of Nigeria to organize the world soil day and also served as a delegate at the conference with over 300 people In attendance including the Vice-Chancellor of the University.

Facilitator at WISTEM organization

- My team and I built a community of women enthusiastic about impacting the world positively. We also put together Bootcamp and trainings and had delegates who came around to speak.

SKILLS AND INTERESTS

- Intermediate Microsoft Excel, Microsoft PowerPoint, and Microsoft Word.
- Intermediate in python programming language
- Intermediate in Web development (Html, CSS, Javascript, and Reactjs)
- Sound Leadership qualities
- Proficiency in public speaking
- Exceptional team player
